WPI; 2002-089798/12. AS18887

Detecting growth hormone variants (GH1), useful in screening patients for growth hormone irregularities, comprises comparing the nuclootide sequence of a GH1 gene from a test sample with thir of a standard sequence of the human GH1.

Disclosure; Fig 6; 95pp; English.

The symptim described a mathod of defecting writation in growth homose CC [GHI] and therefore GH opportunition in an individual. The mathod comprises comparing the melectide sequence of GHI gene describe the comprise of the melectide sequence of GHI gene described comprises the melectide sequence of GHI gene described for the creating sequence of GHI gene described in the comprise of GHI gene described in a settle in accessing spiciants for genetal homose irregularities or producing variant procedure for transition general gener

(UYWA-) UNIV WALES COLLEGE OF MEDICINE

WPI; 2002-089798/12. Cooper DN, Procter AM, Gregory J, Millar DS;

Detecting growth hormone variants (GHI), useful in acreening patients for growth hormone irregularities, comprises comparing the nucleotide sequence of a GHI gene from a test sample with that of a standard sequence of the human GHI.

Claim 18; Page; 95pp; English

The invention described a method of detecting variation in growth hormone 1 (GH1), and therefore GH dysfunction in an individual. The method

Gregory J, Millar DS.

```
comprises comparing the nucleotide sequence of out gree obtained from the ceal subject with a such time account of control desired for the ceal subject with a such time account of control desired for the subject with the control of the control desired for the control of the c

Claim 18; Page, 95pp; English

Detecting growth hormone variants (GH1), useful in screening patients growth hormone irregularities, comprises comparing the mucleoride sequence of a GH1 gene from a test sample with that of a standard sequence of the human GH1.

ö

The invention described a subject of describe writing writing speech hormone [031], and therefore of depriments on in an individual the growth hormone come rises comparing the muclectide sequence of coil gene obtained from the worther on [031] writing world with minimal gene sequence, in order to identify growth hormone irregularities or producing variant processes for treating growth hormone irregularities or producing variant processes for treating growth hormone irregularities or producing variant processes for treating growth hormone irregularities or producing variant growth and the growth hormone irregularities or producing variant growth and growth and
